GARLICLO

Air-peeled, not water-peeled. Since 1980. No chopping. No peeling. No mess.

1. Company Overview

Garliclo, also known as Nader Garlic, is a Lebanese garlic supplier founded in 1980 by Joseph Nader. It specializes in one product: air-peeled garlic for businesses. From our main factory in Sin El Fil (Metn), we supply clean, whole, ready-to-cook garlic cloves to restaurants, industrial kitchens, butcheries, supermarkets and food businesses all over Lebanon. Our promise: you don't peel, we peel for you. No chopping. No peeling. No mess.

2. Mission & Vision

Mission. To save Lebanese kitchens hours of tedious peeling every week, while keeping garlic quality, hygiene, and taste consistent, at honest and transparent prices.

Vision. To become the first name Lebanese kitchens think of for ready-to-use garlic, and to grow from peeled cloves into a full range of convenient garlic products.

3. Products & Prices (New prices, USD per kg)

Product	Origin & process	Price / kg
Peeled & trimmed, large cloves	Chinese garlic, air-peeled and trimmed in our Sin El Fil factory (premium)	$4.00
Peeled, untrimmed	Chinese garlic, air-peeled in our Sin El Fil factory, root end left on	$3.35
Peeled, untrimmed (imported)	Arrives already peeled from China	$3.20
Peeled, trimmed, frozen (imported)	Arrives already peeled, trimmed and frozen from China; long storage	$3.00

All products are Chinese-variety garlic. Volume discounts are quoted by the team.

4. How Air Peeling Works

1. Selection	We source firm, mature Chinese-variety garlic bulbs and sort out damaged or sprouting heads.
2. Breaking	Bulbs are gently broken into individual cloves.
3. Air peeling	Bursts of compressed air lift the skin off each clove: air-peeled, not water-peeled. No knives, no soaking, no chemicals.
4. Inspection	Cloves are checked by hand; bruised or imperfect cloves are removed.
5. Trimming	For our trimmed range, the hard root end is cut off so the clove is 100% usable.
6. Packing	Cloves are vacuum-sealed in the quantity each customer needs and kept cold until delivery.

5. Who We Serve

- Restaurants, including shawarma and grill shops (toum, marinades, sauces)
- Industrial and central kitchens
- Butcheries
- Supermarkets
- Caterers and hotels
- Food manufacturers (sauces, pickles, ready meals)
- New food and beverage businesses: Garliclo is a must when opening one
- Business customers only: we do not sell small quantities to households.

6. Our Unique Value Proposition

Air-peeled, not water-peeled	Whole, firm, unbruised cloves with natural flavor, no chemicals and no added water.
Zero prep	Trimmed cloves are 100% usable straight out of the pack.
Hours saved every week	A busy shawarma shop can peel several kilos a day; we do it for them.
Consistent, all year long	Chefs trust Garliclo to keep recipes consistent plate after plate, every season.
Experience since 1980	Four decades of know-how in sourcing and handling garlic.
Choice at every budget	Garlic air-peeled in our factory, or lower-cost imported options, including frozen.
Delivery all over Lebanon	Clear per-zone delivery fees, and free delivery from 50 kg in Zones 1 to 3.

7. Packaging

- We pack to order, in whatever quantity the customer needs.
- Fresh garlic: vacuum-sealed bags of 1 kg, 5 kg or 10 kg, or custom quantities for bulk orders.

- Frozen garlic: 1 kg bags packed in 10 kg cartons.

8. Storage & Shelf Life

- Fresh air-peeled garlic: keep refrigerated at 0-4 C. Stays fresh for up to 3 weeks unopened; use within 3-5 days once opened.
- Frozen peeled garlic: keep frozen at -18 C, for up to 12 months. Thaw in the fridge and do not refreeze.
- Fresh garlic is best for raw uses such as toum; frozen garlic is ideal for cooking, sauces and marinades.

12. Frequently Asked Questions

Q. What is the difference between trimmed and untrimmed?

Trimmed (muqamma') cloves have the hard root end cut off, so they are ready to use with zero waste. Untrimmed cloves still have the root end and cost a little less.

Q. What is the difference between your own garlic and the imported options?

Products 1 and 2 are air-peeled in our Sin El Fil factory, so they are fresher and firmer. Products 3 and 4 arrive already peeled from China, which makes them more affordable.

Q. What does 'air-peeled, not water-peeled' mean?

Our machines peel with compressed air only. Water-peeled garlic absorbs moisture, which softens it and shortens its life; air-peeled cloves stay dry, firm and full of flavor.

Q. Do you sell to households?

No. Garliclo supplies businesses only: restaurants, kitchens, butcheries, supermarkets and other food businesses.

Q. Do you sell garlic paste, toum, or whole garlic bulbs?

Not at the moment. Our current range is peeled garlic cloves only, but we love hearing what customers would like next.

Q. Is there free delivery?

Yes: orders of 50 kg or more get free delivery in Zones 1 to 3. Otherwise the fee depends on the delivery zone.
